CAMERON IS STRONG.

Captain Rogers Thinks Ex-Governor Will be Nominated.

The congressional nomination fight in the Fourth District promises to become warm before many weeks have passed. Ex-Governor William E. Cameron and Congressman Robert C. Southern and ex-Congressman James Fletcher Epps are the candidates.

Captain Asa Rogers, a Republican, who lives in that district, intimated yesterday that his party would probably not make a nomination. He predicted the nomination of Colonel Cameron. He expressed the belief that Colonel Cameron would carry Petersburg, Dinwiddie, Sussex, Greensville, Prince George, Mecklenburg and Lunenburg. He stated that Mr. Southern will, in his opinion, carry

MEETING OF ASSEMBLY

Question of Union With Northern Church Will be a Leading Issue.

CONVENTION TO MEET HERE

Cranfill-Hayden Affair Created Great Stir—Dr. Lankford Scores Play-Houses.

The General Assembly of the Southern Presbyterian Church will meet in annual session Thursday morning at 10 o'clock in Mobile, Ala.

The delegates from Richmond and Virginia will leave this morning. The two commissioners from East Hanover Presbytery are the Rev. W. S. Campbell, of Richmond, and the Rev. J. S. Foster, of Petersburg. The elders, who are also commissioners from this presbytery, are Mr. M. M. Gilliam and Mr. Gervais Storrs, both of Richmond. All of these gentlemen will leave to-day. Among the Richmond party will also be Dr. A. L. Phillips, superintendent of the Sabbath school work; Mr. R. E. Magill, secretary of publication, and Dr. T. S. McElroy, secretary of Ministerial Relief.

A number of important matters will be before the assembly. A permanent clerk will have to be chosen to fill the vacancy caused by the death of the Rev. Dr. P. Farris, of St. Louis. An overture from the Synod of Missouri and also one from West Hanover Presbytery in this State will ask that the Committee on Ministerial Relief and the Committee on Ministerial Education be combined with one secretary. The question of union with the Northern Presbyterian Church will probably be the most important issue before the body. So far as the Northern Church is concerned, the ministers in this section and the ministers of publication are understood to be steadfastly opposed to any union. They will probably decline to take any step looking to such a development.

The Rev. W. S. Campbell, of this city, is leading a movement for the establishment of the order of deacons within the denomination. The matter goes to the assembly on an overture from East Hanover Presbytery and will probably attract considerable attention. In an article in the current number of the Central Presbyterian, Mr. Campbell points out in detail the advantages that would arise from the institution of the order.

THE BAPTIST CONVENTION.

Personal accounts given by returning delegates to the Southern Baptist Convention, which closed last night at Nashville, Tenn., indicate that the meeting was one of the most important and significant in the history of the body. The attendance was very large, and frequently filled the great tabernacle in which the convention sat. The place was crowded with persons.

Dr. R. H. Pitt, editor of the Religious Herald, returned yesterday and was the first of the Richmond delegates to reach home. According to Dr. Pitt the late convention was a great success. The work was harmonious from beginning to end, and the business was most satisfactorily transacted. The convention boards all showed up finely, and this was particularly true of the Foreign Board, located here. One of the most interesting features of the body was the complication between the Home Board and the Virginia and North Carolina delegates over the question of more thorough work among the negroes. There was some hard work on both sides, but the Virginia delegates went out. The Commission on the Negro was appointed and an important modification demanded by the Virginians was made in the plan of the Home Board.

The sensational episode that culminated in the grip between the Rev. J. B. Cranfill and the Rev. Mr. Hayden, both of Texas, was the talk of the convention. The two men are editors of rival papers and have long been bitter enemies. According to Cranfill, his son, whom he was visiting, played a part in the crisis. He was in the Pullman Cranfill was making his toilet when he looked around and saw Hayden standing over him. Cranfill's eyesight is very bad. He saw something in Hayden's hand, but did not observe what it was, simply a towel. Something in his satchel he drew the pistol, and Hayden, who really had no weapon, rushed at him. In the scuffle the pistol was discharged, Cranfill says he could have killed Hayden, but did not wish to do so. Hayden, however, was not of a sensation. It was not, however, officially recognized by the convention. The body took no action of either Cranfill or Hayden, neither of whose name was enrolled among the delegates.

Some quiet but effective work was done by the Virginia delegates in the direction of securing the convention for this city in 1907. The matter was talked up on the outside upon every opportunity. The proposition was very favorably received, and it can hardly be doubted that the convention will accept the offer. Norfolk is also after it, but will hardly make much of a fight if Richmond is in it in earnest.

Children's Day.

The morning service at Park Place Church Sunday was made particularly bright and attractive by the children. A mass of palms and ferns, beautiful vases of roses and carnations decorated the pulpit and made a charming background for the little tots who sang and recited. The exercise was opened with the singing of "All Hail the Power of Jesus' Name," followed by a welcome address by Miss Nancy Gordon, of Norfolk. The children sang "He Knows" with much pathos and sweetness. Miss Grace Fultz recited "God Cares For Us." The infant class, under the direction of older children, sang a beautiful song. The responsive reading was led by Mr. Fred

GOVERNOR AND BOARD TO MAKE ANNUAL VISITATION TO-DAY.

Governor Montague and the board of visitors of Mount Vernon will make their annual visit to that historic place to-day. They will leave for the place at 10 o'clock, and will be accompanied by Hon. Fredericksburg and Potomac Railroad to Alexandria, and will take the electric train from there, returning here to-night.

Governor Montague returned from Powhatan county Sunday, when Saturday afternoon he made an educational address. It was the Governor's first appearance in public in the county and he enjoyed the trip very much. He spent yesterday in his office in the executive department, looking after official matters.

Will Analyze the Water.

The Water Committee of the Council met last night, but did little more than the routine work. A subcommittee consisting of Messrs. Beck and Bosseux and Superintendent Bolling was constituted to inquire into the advisability of having a test made of the water supplied to the city. This is done partially with a view to experimenting with the new coal-burner to be used in the new settling basin. The subcommittee will report to the full committee at a meeting on May 25th.

Several applications for water meters were given. The committee concluded its work and rose before 9 P. M.

PRIMARY IN MANCHESTER

Stiff Fight Against the Present Council Closed Last Night.

"INS" WILL PROBABLY WIN

Mayor Maurice's Friends Are Confident—The State May Win in Two Cases.

Manchester Bureau, Times-Dispatch, No. 102 Hull Street.

The primary campaign closed last night. Up to a late hour the candidates and their friends were out among the people "nailing" votes, and getting promises. It was said that some of them made a house to house canvass, and that to-day the vote will be as full and complete as persuasion can make it.

No money has been spent. The pure election law was fully observed, and the men who win will do so on the merits of the individual.

The indications last night pointed to success to Mayor Maurice, and all of the present members of the lower branch of Council, with a heavy fight on Mr. Wakefield in the First Ward, and Mr. Pettit in the Second.

In the Fourth Ward Alderman Barrett seems to be up against it. His friends, however, think he will pull out against Mr. Robinson. Mr. Robinson's friends, think just the opposite. Mr. Moore's election is conceded.

The polls will be opened at 6 o'clock this morning and will close at 7 this evening. At 8 o'clock the City Committee will assemble to canvass the vote and transact any other business that may come up before them. Here is the complete list:

STEAMER SINKS

FISHING SCHOONER

Ocean Liner Runs Into the Craft and Cuts Her in Two—Entire Crew Saved.

(By Associated Press.)

NEW YORK, May 16.—The Ward Line steamer Seneca, which arrived to-day from Havana, had on board Captain Ness and seventeen men of the fishing schooner Pleiades, which was run down and sunk by the Ward Line steamer Morro Castle Saturday evening. The collision occurred about three miles east by south from Absecomb light during a dense fog while the steamer was bound from New York for Havana.

Captain Ness says that shortly before the collision he heard a warning signal, but it seemed too far distant to attract any special attention. A moment later, a large steamer appeared through the fog heading directly for the schooner. There was no time to change the course of either vessel and the prov of the steamer, which seemed to be the Morro Castle, crashed into the side of the schooner, cutting her almost completely in two.

The Pleiades sunk seven minutes after the collision, but in the meantime boats had been lowered and the crew escaped. The men saved nothing but the clothing which they wore at the time of the accident.

The men were taken on board the Morro Castle, which proceeded and on Sunday morning off Cape Henry were transferred to the Seneca, which was bound for New York.

The Pleiades was from Virginia Beach with six thousand blue fish for the New York markets. She was built at Booth Bay, Me., in 1883, and was owned in New York. She was 71 tons register.

Louisiana's New Governor Says He Will Not Permit Them or Mob Violence.

(By Associated Press.)

BATON ROUGE, May 16.—In the presence of a multitude of Louisianians gathered in the grounds of the State Capitol to-day, Newton C. Blanchard was inaugurated as Governor and Jared Y. Sanders as Lieutenant-Governor.

In his inaugural address Governor Blanchard, speaking on law and order, said: "Mob law in contravention and defiance of law will not be tolerated. Lynchings will not be permitted under any circumstances, if it be possible for the military at the command of the Governor to prevent it. Sheriffs will be held to the strictest accountability possible under the law for the safety from mob violence of persons in their custody."

On the negro question, he says: "The negro is here. He is a man and a citizen. He is useful and valuable in his sphere. Within that sphere he must be guaranteed the equal protection of the law and his education along proper lines—mainly agricultural and industrial—is at once a duty and a necessity. He must be protected in his right to live peacefully and quietly, in his right to labor and enjoy the fruits of his labor. He must be encouraged to industry and taught habits of thrift."

"No approach toward social equality or social recognition will ever be tolerated in Louisiana."

"Separate schools, separate churches, separate cars, separate places of entertainment will be enforced. Racial distinction and integrity must be preserved. But there is room enough in this broad Southland, with proper lines of limitation and demarcation, for the two races to live on terms of mutual trust, mutual help, good understanding and concord. The South asserts its ability to handle and solve the negro question on humanitarian lines—those of justice and of right. We brook no interference without it. It is up to the South to so handle and solve it as to furnish no occasion for such interference."
